HOW TO FIGURE

Batting Average—Divide the total number of hits collected by a player by the total number of at bats. Example: Player A is 12-of-40 or .300.

Slugging Percentage—Divide the number of total bases by the total number of at bats. Example: Player A's 12 hits include six singles (6). one double (2), two triples (6) and three home runs (12) for 26 total bases in 40 at bats and a .650 slugging percentage.

Earned Run Average—The total number of earned runs allowed by a pitcher is divided by the total number of innings pitched and then multiplied by nine for his per-game average. Example: Pitcher B has allowed 12 earned runs in 45 innings of work for a 2.40 ERA.

Fielding Average—The sum of putouts and assists is divided by the sum of putouts, assists and errors. Example: Player C has made 16 putouts and 24 assists and two errors. That's 40 putouts and assists divided by 42 chances for a fielding average of .952.

Won-Lost Percentage—Divide the number of victories by the total number of games played. Example: 22 wins and 18 losses produce a winning percentage of .550.

Magic Number—Determine the number of games yet to be played by the division leader, add one, then subtract the number of games ahead in the loss column of the standings from the closest opponent.

Chuck Armstrong is in his sixth season as President and Chief Operating Officer of the Seattle Mariners. Armstrong, who joined the club on Oct. 19, 1983, oversees all aspects of the organization and reports directly to owner George Argyros.

Under his direction, the Mariners have become more involved in the Seattle business community and have initiated a variety of programs to benefit the youth throughout the Puget Sound area. The success of these efforts is reflected in the fact that the Mariners have drawn over a million fans in each of the last four seasons.

Prior to joining the Mariners, Armstrong served as President and Chief Executive Officer of George Argyros' Arnel Management Company in Orange County, CA from 1980-83. He also served as General Counsel and Member of the Executive Committee of Arnel Development and its affiliate, Arnel Financial.

One week later, he moved on to the Philadelphia Phillies and served as their Vice President, Player Personnel from Oct. 28, 1987 until June 7, 1988.

A former NCAA All-American, Woodward earned a bachelor's and master's degree in Education from Florida State University. Following his graduation, he signed his first professional contract with the Milwaukee Braves' organization in 1963 and made his Major League debut with Milwaukee later that season.

He spent nearly five years with the Braves, moving with the club to Atlanta in 1966, before he was traded to Cincinnati in 1968. While with Cincinnati, he appeared in the Reds' 1970 NLCS sweep of Pittsburgh and their World Series loss to Baltimore.

Following the 1971 season, he entered private business, but came back to baseball in 1974-75 as a Reds' TV broadcaster. He returned to his alma mater as a coach, posting the second-best winning percentage in Seminole history (170-57, .749) from 1975-78.

MAJOR LEAGUE WAIVERS

The "trading deadline" is **July 31**. Waivers are required for any inter- or intra-Major League assignment during the period beginning August 1 and ending at 5 pm ET the day after the end of the season. During the other ten months of the year no waivers are needed.

It will be easier to compute which players need waivers before they may be optioned: if three years (less one for each previously spent on option) have elapsed since the player *actually reported* to the Major Leagues for the first time, waivers are required. The date of actual physical reporting will be used as the benchmark instead of the date the player was first placed on a club's 40-man roster.

The procedure for outright assignments to the National Association remains unchanged from the 31st day of each season until August 31; during this period, ordinary waivers are required. However, from September 1 until the 30th day of the following season, special waivers are required:

> The club must tender a special waiver request specifying that waivers are requested for the purpose of outright assignment to the National Association. The claiming period, as with other waivers, is three business days, and an assignment pursuant to special waivers must be completed by 2 pm ET the seventh day after the waivers were secured.

Seventy-two-hour waivers, secured on players recalled not to report, continue unaffected except insofar as they no longer suffice for an outright assignment to the National Association during those times in the year when special waivers are required.

GROUND RULES

PHOTOGRAPHERS' AREA

The ball is "in play" if it hits the retaining fence and bounces back into the playing field.

HITTING SUSPENDED OBJECTS

A batted ball hitting any suspended object, such as speakers, wires, etc. in *fair territory* shall be judged fair or foul in relation to where it lands or is touched by a fielder. If caught by a fielder, the batter is out and base runners advance at their own risk.

A batted ball hitting any suspended object in *foul territory* is a foul ball, regardless of where it lands or is touched by a fielder. If the ball is caught by a fielder, the batter is out and the base runners advance at their own risk.

A batted ball sticking in any suspended object in foul territory shall be called a strike. A batted ball sticking in any suspended object in fair territory shall be a ground rule double.

OUTFIELD AREA

Fairly batted ball clearing the wall is home run. Fairly batted ball bouncing over the wall is a ground rule double.

DUGOUTS

A ball shall be considered "thrown into the dugout" only if it hits an object or person within the dugout. A thrown ball hitting the lip at the base of the dugout or the frame around the dugout and bouncing back into the playing field shall be "in play".

A thrown ball hitting any player's equipment that is left on or in front of the dugout yellow line shall be considered in the dugout.

BULLPEN AREAS

THE RBI CLUB

The RBI Club is a group of local business men and women who are dedicated to the development of the game of baseball in the Pacific Northwest, and dedicated in particular to the Seattle Mariners. RBI stands for "Real Baseball Involvement", and the members have become an instrumental part of Mariner baseball since the charter was set in February of 1980. The major thrust has been in the area of season ticket sales. The current commissioner is Chuck Cereghino (Weyerhauser). Mr. Cereghino is assited by Mr. Merle Swenson (S&W Fine Foods), Mr. Ron Elgin (Elgin Syferd), Mr. Ben Ebbesen (President of Thriftway) and more than 100 business people who believe very strongly that Major League baseball is extremely important to the Pacific Northwest. Club members attend a monthly luncheon, host an annual golf tournament and visit the Mariners during spring training in Tempe.

BROADCASTERS

DAVE NIEHAUS has been a Mariners broadcaster since the club's inception into the American League in 1977. During his 12 seasons behind the microphone for the M's, he has missed only four games (one in 1982 and three in '88, all to attend graduation ceremonies for his children). Entering the 1989 season, he has witnessed 1886 of the 1890 games played by the Mariners. He is recognized as one of the best and most exciting broadcasters in the game of baseball (rated in the top four in major league baseball in a 1986 SPORT Magazine Poll), and he has become instantly identified with Mariners baseball wherever he goes. His expressions like "My Oh My" and "It will fly away" (for home runs) have become familiar throughout the Northwest.

Dave was born and raised in Princeton, Indiana, and is a graduate of Indiana University, where he worked for the campus radio station. He then went to work for the Armed Forces radio and TV service, calling the action for Los Angeles Dodgers games before moving to New York to handle Yankees baseball as well as basketball and hockey from Madison Square Garden. After leaving the Armed Forces Network, he returned to Los Angeles to broadcast the Dodgers, Rams and Lakers. From 1969-76, he teamed with Dick Enberg and Don Drysdale to call the action for the California Angels on KMPC Radio. Dave also broadcasted UCLA football and basketball (1973-76). He resides in Bellevue with his wife Marilyn. They have three children (Andy, Matt and Greta).

RICK RIZZS (pronounced RIZ) has handled the play-by-play with Dave Niehaus on radio and television since 1983. Rizzs, 34, broadcast the Columbus (Ohio) Clippers of the International League (AAA) and Ohio State football for two seasons on WBNS Radio, where he also served as sports director. He is a 1975 graduate of Southern Illinois University in Carbondale. From 1975-80, Rick was the play-by-play announcer at the AA level with the Alexandria Aces, Amarillo Gold Sox and Memphis Chicks. He was named the Ohio "Sportscaster of the Year" in 1981 by the Ohio Sportscasters Association. During the off-season, Rick is involved with the M's Speaker's Bureau and works closely with the local Cystic Fibrosis chapter and their "65 Roses" Club. He resides in Bellevue with wife Kristi.

JOE SIMPSON begins his third season as the color commentator for all Mariners telecasts in 1989. "Gentleman Joe" spent the majority of his big league career as a Mariners outfielder (1979-82), but also saw action with the Los Angeles Dodgers and Kansas City Royals.

After a sparkling collegiate career at the University of Oklahoma, where he earned All-America honors his senior year, Simpson was taken by the Dodgers in the third round of the 1973 June draft.

In his first season with Seattle, Simpson played in 120 games and batted .283. He hit a combined .252 in four seasons with the M's and concluded his major league career with Kansas City in 1983.

In 1985 he served as a commentator for Oklahoma City (AAA) of the American Association. In 1986, Simpson covered a variety of games, including the NCAA Regional Tournament in Stillwater, Oklahoma.

Joe currently resides in Norman, OK, with his wife Kathy and children Meg and Gabe.

A CAPSULE HISTORY OF PROFESSIONAL BASEBALL IN SEATTLE

1890 The first professional baseball team in Seattle was organized. The Seattle Reds played in the Class-C Pacific Northwest League.

1892 The Reds (first-half champions) won the P.N.L. Pennant when the Portland club declined to enter the playoffs because of financial problems.

1896 Club was re-named "Braves", and moved into its first stadium (Athletic Park - 14th and Yesler).

1903 The Pacific Coast League was formed, and Seattle was a charter member. Thus, Seattle had two professional baseball teams for one season (The Braves were now in the Pacific National League, and folded after one year.).

1906-17 Seattle ended its membership in the P.C.L. and joined the Class-B Northwestern League.

1919 Seattle re-joined the Pacific Coast League. The club was named "Indians" and played a 225-game schedule (The extended-season format continued through the 1957 P.C.L. season).

1937 Emil Sick bought the Seattle franchise for $115,000, and immediately changed the nickname to "Rainiers" (Sick also owned and operated the Rainier Brewing Co.).

1938 On June 15, the Rainiers moved into the newly-built Sicks' Stadium (seating capacity of 11,500). Local sports hero Fred Hutchinson began his rookie season and posted a 25-7 record.

1939-41 The Rainiers won three consecutive P.C.L. pennants.

1955 Hutchinson returned as manager of the Rainiers and led the club to another P.C.L. crown. In addition, the first official proposition for a domed stadium in Seattle was made (Bond issues for the project failed in 1960 and '64).

1960 Sick sold the club to the Boston Red Sox. Seattle became the Red Sox triple-A affiliate.

1966-68 The California Angels purchased the club, and Bob Lemon managed Seattle to its last baseball championship.

1967 Public approval was given for funds needed to build a domed stadium (Completion was scheduled to be prior to the 1972 season).

1969 The Seattle Pilots came into existence and began play in the American League. Sicks' Stadium was expanded to seat 28,500 and 677,944 fans came out to watch the 64-98 expansion team. Third baseman Tommy Harper led the junior circuit with 73 stolen bases.

1970 On April 1, financial difficulties forced the Pilots to move to Milwaukee (Club was re-named "Brewers"). Plans to build a domed stadium were temporarily interrupted.

1972-76 Seattle fielded a team in the Class-A Northwest League.

1977 On April 6, major league baseball returned to Seattle when the Mariners played the California Angels before a Kingdome crowd of 57,762. The M's starting pitcher that night was Diego Segui, a member of the 1969 Pilots.

ITEMS OF INTEREST

AMERICAN LEAGUE CURFEW RULE—All night games must be called at 1 a.m. local time. But if an inning is started prior to 1 a.m. city time, it can be completed.

BATTING/PITCHING (ERA) CHAMPION QUALIFICATIONS—502 or more plate appearances, 162 or more innings.

DESIGNATED HITTER RULE—A hitter may be designated to bat for the pitcher in any spot in the batting order in any game without affecting the status of the pitcher. The designated hitter must be selected and be included on the lineup cards presented to the umpire-in-chief prior to the game. Failure to do so precludes the use of a designated hitter for that game. The designated hitter is "locked" into the batting order but may be removed for a pinch-hitter or pinch-runner, who in turn becomes the designated hitter. The designated hitter, while still in the game, may be used defensively but the pitcher then assumes the batting order of the replaced defensive player, thus terminating the designated hitter role. The designated hitter is eligible for all American League batting titles. The designated hitter named in the starting lineup must come to bat at least one time, unless the opposing club changes pitchers.

GAME-WINNING RBI—The game-winning RBI became an official baseball statistic in 1980. It is determined by the "run batted in that gives a team a lead that it never relinquished."

INTERLEAGUE TRADING PERIODS—From 12:01 a.m. on fifth day after completion of world series thru midnight preceding the last scheduled day of the winter meetings, and from 12:01 a.m., Feb. 15 thru midnight, April 1.

MAJOR LEAGUE SERVICE—Baseball measures service in years and days (years + days). 172 days on the active roster during the regular season constitutes a full year.

PLAYER LIMITS—24 players from opening day through August 31 . . . 40 players from September 1 through end of season . . . Players in military service do not count against the under control list while on active duty. Upon separation from the service, a player will be reinstated to his club's normal player limits after he has completed a 15-day trial period or has participated in a championship game, whichever comes first.

ROOKIE QUALIFICATOINS—A player shall be considered a rookie unless, during a previous season or seasons, he has (a) exceeded 130 at bats or 50 innings pitched in the major leagues; or (b) accumulated more than 45 days on the active roster of a major league club or clubs during the period of the 25-player limit (excluding time in military service).

SAVE RULE—A relief pitcher shall be credited with a save when he meets all three of the following conditions: 1) he is the finishing pitcher in a game won by his club; 2) he is not the winning pitcher; and 3) he qualifies under one of the following conditions; a) he enters the game with a lead of no more than three runs and pitches for at least one inning, or b) he enters the game with the potential tying run either on base, at bat, or on deck (i.e., the potential tying run is either already on base or is one of the first two batsmen he faces), or c) he pitched effectively for at least three innings.

CONSECUTIVE-GAME HITTING STREAKS—A consecutive-game hitting streak shall not be terminated if all the player's plate appearances (one or more) result in a base on balls, hit batsman, defensive interference or a sacrifice bunt. The streak shall terminate if the player has a sacrifice fly or no hit.
